2022 CITY BAR SUMMER SERIES

CAREERS IN CYBERSECURITY & DATA PRIVACY– AUGUST 4TH

SPEAKER BIOS

MODERATOR

Sylvia Khatcherian, *MiiM, Inc.*
A global legal executive with vast experience serving as lead global technology counsel to two Fortune 100 financial services companies, Morgan Stanley and American Express, Deputy General Counsel to the world's largest hedge fund, Bridgewater Associates, and currently the General Counsel and Chief Administrative Officer at MiiM, Inc, a Tech/Ai startup.

Sylvia serves as Chair of the Technology, Cyber & Privacy Law Committee of the NYC Bar Association, focusing on legal and policy issues presented by developing technology capabilities, including AI and Biometrics, and their use in private and public sectors.

She started her career in private practice, was a partner at Brown, Raysman and Millstein, and taught at Brooklyn Law School as an Adjunct Professor. Sylvia holds a JD degree from New York University School of Law, and an A.B. (Math/Economics), magna cum laude, from Barnard College, Columbia University.

SPEAKERS

Joseph V. DeMarco, *DeMarco Law, PLLC*
Joseph V. DeMarco is a partner at DeMarco Law, PLLC where he focuses on counseling clients on complex issues involving information privacy and security, theft of intellectual property, computer intrusions, on-line fraud, and the lawful use of new technology. His years of experience in private practice and in government handling the most difficult cybercrime investigations handled by the United States Attorney's Office have made him one of the nation's most sought-after lawyers on Internet crime and the law relating to emerging technologies. In addition to his counsel practice, Mr. DeMarco serves as an Arbitrator, resolving complex commercial and high-technology disputes between businesses. He is on the National Panel of Neutrals of the American Arbitration Association (AAA) and Federal Arbitration, Inc. (FedArb).

From 1997 to 2007, Mr. DeMarco served an Assistant United States Attorney for the Southern District of New York, where he founded and headed the Computer Hacking and Intellectual Property (CHIPs) Program, a group of five prosecutors dedicated to investigating and prosecuting violations of federal cybercrime laws and intellectual property offenses. Under his leadership, CHIPs prosecutions grew from a trickle in 1997 to a top priority of the United States Attorney's Office, encompassing all forms of criminal activity affecting e-commerce and critical infrastructures including computer hacking crimes; transmission of Internet worms and viruses; electronic theft of trade secrets; illegal use of "spyware"; web-based frauds; unlawful Internet gambling; and criminal copyright and trademark infringement offenses. As a recognized thought leader in the field, Mr. DeMarco was frequently asked to counsel prosecutors and law enforcement agents regarding novel investigative and surveillance techniques and methodologies, and regularly provided advice to the United States Attorney concerning the Office's most sensitive computer-related investigations. In 2001, Mr. DeMarco also served as a visiting Trial Attorney at the Department of Justice Computer Crimes and Intellectual Property

Section in Washington, D.C., where he focused his work on Internet privacy, gaming, and theft of intellectual property.

Since 2002, Mr. DeMarco has served as an Adjunct Professor at Columbia Law School, where he teaches the upper-class Internet and Computer Crimes seminar. He has been invited to speak throughout the world on cybercrime, e-commerce, and IP enforcement. He has lectured on the subject of cybercrime at Harvard Law School, the Practicing Law Institute, the National Advocacy Center, and at the FBI Academy in Quantico, Virginia, and has served as an instructor on cybercrime to judges attending the New York State Judicial Institute.

Prior to joining the United States Attorney's Office, Mr. DeMarco was a litigation associate at Cravath, Swaine & Moore in New York City, where he concentrated his work on intellectual property, antitrust, and securities law issues for various high-technology clients. Prior to that, Mr. DeMarco served as law clerk to the Honorable J. Daniel Mahoney, United States Circuit Judge for the Second Circuit Court of Appeals.
Mr. DeMarco holds a J.D. magna cum laude from New York University School of Law. At NYU he was a member of the NYU Law Review. He received his B.S.F.S. summa cum laude from the Edmund A. Walsh School of Foreign Service at Georgetown University.

Wesley Paisley, *Public Interest Attorney*
Wesley Paisley is a public interest attorney. He currently works as an assistant general. In past roles, he has worked in compliance overseeing privacy, tech and cybersecurity matters. While in law school, he published a paper on the growing concern of cyber attackers. His article focused on an industry initiative to address cyber attackers via technological means or litigation in federal court. Wesley is the incoming co-chair of the New York City Bar Association Technology, Cyber and Privacy Law Committee.

Wesley received his B.A. from Brooklyn College, M.S. from NYU and his J.D. from New York Law School. He was also a 2014 NYCLA Harold Baer Jr. Judicial Minority Scholar.

Kari Rollins, *Sheppard, Mullin, Richter & Hampton LLP*
Kari M. Rollins is a partner in the Intellectual Property Practice Group and an Office Managing Partner of Sheppard Mullin's New York office.

Kari focuses on data privacy and data security, and complex commercial litigation matters. She has successfully represented clients in the financial services, audit and accounting, retail and fashion, food services, hospitality, manufacturing, and technology industries before state and federal courts, as well as in front of state attorneys general, federal regulators, and U.S. and international commercial arbitration forums.

Kari serves as a trusted advisor to her clients, bringing a focused, strategic approach to complex litigation and data security matters alike. Her clients praise her ability to efficiently and effectively manage complex matters with multiple moving pieces, and to concisely and persuasively communicate the core issues of her clients' cases to judges, regulators, and opposing counsel. These traits have enabled Kari to successfully argue critical motions, procure dismissals, and achieve successful resolutions for her clients in the context of complex commercial litigation, as well as effectively managing high-intensity incident response matters and regulatory inquiries arising from data privacy and security issues.

As it relates to her data security practice, Kari offers her clients the continuity of effective assistance during all three critical stages of the data security lifecycle: (1) cybersecurity preparedness (the before); (2) data breach investigation and response (the during); and (3) data breach litigation and regulatory enforcement (the after). As part of cybersecurity preparedness, Kari assists clients in crafting their existing security and compliance practices in the context of the ever-changing data security regulations so they are as well positioned as possible in the event of the inevitable data incident or inquiry. When a data incident occurs, Kari draws on her significant litigation and internal investigation experience to manage and direct all aspects of incident response for her clients—from directing forensic investigators, to liaising with insurance counsel, to determining whether the facts of the incident give rise to a duty to notify, to overseeing notification to consumers and regulatory bodies, and to assisting with communications to Boards and responding to media inquiries. Finally, post-breach, in the event litigation or regulatory inquiries ensue, Kari draws on her significant litigation experience to offer clients strategic assistance in defending against complex data privacy litigation and/or regulatory inquiries from state and/or federal regulators.

Recognizing her effective assistance in the area of data security, Kari was named to Cybersecurity Docket's 2019, 2020, and 2021 Incident Response 30, which recognizes 30 of the best and brightest data breach response lawyers in the business who are key players in the most significant data breach responses worldwide. Crain's New York Business named Kari as one of their Notable Women in Law in 2020, and Legal 500 recognized Kari as a Leading Lawyer in Cybersecurity in 2020 and 2021. Global Data Review also named Kari to its first annual "40 under 40" list in 2018, praising her as one of the top 40 practitioners in data privacy globally under the age of 40. Kari is also a partner in the Privacy and Cybersecurity team of Sheppard Mullin, which was recognized as a "2018 Practice Group of the Year" by Law360.

Kari is invited annually to give numerous speeches and seminars on data privacy and data breaches by organizations across the country, and regularly writes articles and blog posts on emerging trends and topics in data privacy. Notably, Kari wrote a chapter on cybersecurity standards and data breach response in Volume III of The US Privacy Equity Fund Compliance Guide published by Privacy Equity International, and currently sits on the Drafting Committee of the Sedona Conference WG11 on Data Security and Privacy Liability, which is responsible for drafting and publishing the Sedona Conference WG11 Incident Response Guide, a practitioners guide to navigating the law and issues relating to preparing for, managing, and responding to data breaches. Prior to her move to New York, Kari brought her experience to the classroom as an adjunct law professor at DePaul University's College of Law in Chicago, teaching a course on data breach law.

Beata A. Safari, *Octillo PLLC*

Beata Safari is a contracts attorney who focuses her practice at the intersection of data security, privacy, and technology. Her experience includes advising public-sector clients on construction-related contracts, drafting vendor contracts, and responding to contract disputes and claims.

At Octillo, Beata counsels clients on domestic and international data security and privacy laws. She helps build privacy programs that work towards compliance with regulations, such as the European Union's General Data Protection Regulation (GDPR), the California Consumer Privacy Act (CCPA), Virginia Consumer Data Protection Act (VCDPA), Colorado Privacy Act (CPA), and other emerging privacy laws. She also reviews existing data security and privacy protocols to identify vulnerabilities and works to mitigate legal risk using practical, cost-effective solutions.

Beata is a Certified Information Privacy Professional for the United States (CIPP/US) as certified by the International Association of Privacy Professionals (IAPP). She is fluent in English, Russian, and professionally proficient in French.

Adam Scott Wandt, *John Jay College of Criminal Justice*
Adam Scott Wandt is an Assistant Professor of Public Policy and Vice Chair for Technology of the Department of Public Management at John Jay College of Criminal Justice. He is a member of the graduate faculty in the Master of Public Administration program and the Master of Digital Forensics and Cyber Security program.

Professor Wandt is a practicing Attorney and Counselor-at-Law. He has worked on sponsored research for, or in partnership with, The Federal Bureau of Investigation, the United States Department of Justice, the United States Bureau of Justice Statistics, Interpol, the United Nations, as well as law enforcement and educational institutions from around the world.

His primary research and consulting interests include technology law and policy, information security, investigative/surveillance technology, OSINT, cryptocurrency, darknet markets, and social engineering. He has over two decades of experience developing custom investigative, forensic, educational, and data management solutions for federal, state and local government agencies. In 2020 along with two co-principal investigators, he was awarded a three year, $600,000 grant from the National Institute of Justice to study fentanyl sales on the dark web and provide software solutions to the Department of Justice to combat the opioid epidemic. In 2022 Professor Wandt, as a coprincipal investigator, was awarded two grants from the United States Department of Justice, providing approximately $2,000,000 in funding to educate and train US law enforcement personnel in cyber related issues and provide tools to enable them to conduct advanced cyber forensic investigations.

Appointed as an Instructor by the Association of Inspectors' General in 2012, Professor Wandt is responsible for the curriculum and certification in digital evidence resources and social media investigations for the Certified Inspector General (CIG) institute.

A portal to most of his work, including his photography, is available at http://wandt.us

DISCUSSION LEADERS

Paula Millar, *Arnold & Porter LLP*
Paula Millar primarily focuses on the technology sector, advising a broad range of businesses on the development, commercialization, acquisition, and implementation of technology solutions. She regularly assists businesses in commercial transactions involving information technology, privacy, cybersecurity, and intellectual property. As part of her practice, she advises on issues relating to cloud computing, e-commerce, licensing, data sharing, and a wide range of emerging technologies.

Before joining the firm, Ms. Millar was an associate in the Toronto office of an international law firm. She also served as in-house legal counsel at a leading global fintech company, where she gained considerable experience in SaaS, payments and artificial intelligence. Ms. Millar draws on this prior in-house experience to bring a business-minded approach to her practice.

Ms. Millar is a 2015 graduate of the University of Ottawa Faculty of Law.

Jason T. Raylesberg, *Arnold & Porter LLP*
Jason Raylesberg advises clients on a variety of privacy, data security and consumer protection issues arising from the use of personal information. In particular, he regularly counsels clients on their compliance obligations and risks relating to state, federal, and international laws, including the California Consumer Privacy Act, Gramm-Leach-Bliley Act, Fair Credit Reporting Act, and General Data Protection Regulation. Mr. Raylesberg also helps companies navigate their legal obligations in the aftermath of a security incident or data loss.

Additionally, Mr. Raylesberg assists private equity groups, REITs, institutional investors, and developers on a wide range of sophisticated real estate transactions, with a focus on acquisitions, dispositions, and joint ventures. He also represents investment banks, debt funds and institutional lenders in the origination and restructuring of mortgage and mezzanine loans for the acquisition and refinancing of properties throughout the United States.

Mr. Raylesberg is a 2017 graduate of the University of Michigan Law School, where he was an editor of the Michigan Journal of Race and Law. Prior to law school, he was a Teach For America corps member and taught eleventh grade English in the New York City public schools.
