# CADA VOTO CUENTA

VOTER PROTECTION APP

Our newly updated voter protection app will help ensure that every voice is heard and every vote is counted this November. If you live in NY, FL, GA or PA, sign up to be a **Cada Voto Cuenta** volunteer at (833) LJP-LTNX. Help us protect the vote this Election Day 2020!

Special thanks to our LatinoJustice Líderes Board for their continued support.

# GET TO KNOW

## CHAMPIONS OF CIVIL & HUMAN RIGHTS

### MISSION

LatinoJustice PRLDEF works to create a more just society by using and challenging the rule of law to secure transformative, equitable and accessible justice, by empowering our community and by fostering leadership through advocacy and education. For more than 40 years, LatinoJustice PRLDEF has reversed injustices and created opportunities throughout the country.

### AREAS OF IMPACT

CAP Leadership Institute

Criminal Justice Reform

Economic Justice

Immigrant Rights

Puerto Rico

Voting Rights

## THE CESAR A. PERALES LEADERSHIP INSTITUTE

Sponsored by Nixon Peabody LLP

We strengthen the Latinx pipeline to law school and foster Latinx leadership by raising awareness, and promoting engagement and access to professional and civic circles.

**THE ISSUE:** At 18% of the population, Latinxs are a crucial and growing part of the U.S. workforce and economy but are vastly under-represented in the legal profession (4%) and in professional, government and boardroom leadership pipelines.

**OUR IMPACT:** We've helped over 10,000 Latinxs become attorneys, community leaders and judges. In 2017, we launched *Next Generation Lideres* to provide multi-year mentors from our network for Latinx youth preparing for law school and other leadership careers.

## CRIMINAL JUSTICE REFORM

Promoting fairness, restoration and safety by using litigation, advocacy, community engagement, policy analysis and narrative change to deracialize and create a more just criminal justice framework.

**THE ISSUE:** About six-in-ten U.S. Hispanic adults (58%) say they have experienced discrimination or been treated unfairly because of their race or ethnicity. Between 2002 and 2013, for example, black and Latino people in New York were nine times as likely to be stopped by the police than white residents.<sup>1</sup>

**OUR IMPACT:** Through litigation, advocacy and community engagement, we reduced illegal Stop & Frisk practices in New York that ensnared over 4 million people of color with over-aggressive policing.

## ECONOMIC JUSTICE

Addressing, through litigation and advocacy, the economic injustices directed at a low-wage and immigrant Latinx workers, using an expansive lens towards justice that upholds dignity as a human right.

**THE ISSUE:** 2019 Surveys show that more than 50% of African Americans, 1 in 3 Native Americans, 1 in 4 Asian Americans, and more than 1 in 5 Latinos report experiencing racial discrimination in hiring, compensation, and promotion considerations.<sup>2</sup>

**OUR IMPACT:** In 2019, in collaboration with AALDEF, we sued and successfully won a \$1.7M back wages settlement for 12 Latino and Asian workers. We continue to work for workers' protections in the era of COVID-19.

## IMMIGRANT RIGHTS

Defending immigrants facing discrimination and obstacles living and working in the U.S., whether they fled persecution in their home countries or are long-standing members of their communities.

**THE ISSUE:** There were 851,508 ICE apprehensions in the 2019 fiscal year (Oct. 2018–Sept. 2019), a 115% increase from the previous fiscal year and the highest total in 12 years.<sup>3</sup>

**OUR IMPACT:** In *Aguilar v. ICE* we successfully challenged ICE illegal home raids, forcing them to comply with the Constitution and restricted their authority to conduct future home raids.

## PUERTO RICO

Reinforcing and protecting the rights of Puerto Rican citizens, to lead a life of dignity, respect and meaning and focusing on economic justice, self-determination and participation in a true decolonization process.

**THE ISSUE:** After years under failed U.S. austerity measures and a devastating 2017 hurricane, tens of thousands of Puerto Ricans have been displaced, lost jobs, homes, education access and more.

**OUR IMPACT:** We successfully advocated for an extension of FEMA benefits for Puerto Ricans displaced by Hurricane Maria, created the mechanisms to provide claims counseling to hundreds on the Island and provided legal advocacy for hundreds who since migrated to the States and encountered discriminatory housing and licensing practices.

## VOTING RIGHTS

Protecting the rights and access of Latinos to vote and participate in civic processes, thereby ensuring their representation in decision-making and the allocation of resources locally and nationally.

**THE ISSUE:** Since 2000, the size of the immigrant electorate has nearly doubled. More than 23 million U.S. immigrants will be eligible to vote in the 2020 presidential election.<sup>4</sup>

**OUR IMPACT:** We successfully litigated to reinstate 100K+ eligible Latino voters to the rolls during the 2008 elections and, in 2016, launched *Cada Voto Cuenta*, equipping volunteers to report and respond to Latino voter suppression tactics at the polls.

## General Social Media Toolkit

There is a lot at stake for New York City in this year's census. Regardless of your age, nationality, or immigration status, everyone needs to participate. Funding for our schools, health care, jobs programs, housing, transportation, and so many other vital services are shaped by the census. Census data helps many localities determine language access policies and plan for public health care scenarios like COVID-19. Additionally, the census determines each state's share of congressional seats and New York will lose up to two congressional seats as a result of a potential undercount. The census also determines local district lines; an accurate count will help ensure fairer political representation for our immigrant communities in the future.

With so much on the line, we need every New Yorker to be counted. However, many neighborhoods in NYC have census self-response rates below the rest of the nation and city. Even before the COVID-19 pandemic hit those neighborhoods, these communities have a history of being undercounted due to a legitimate distrust of the federal government and also privacy concerns, fears that were stoked by the Trump Administration's failed plan to add a citizenship question to the census. Thankfully, the citizenship question was banned, but the damage has been done.

We need your help to spread the word to ensure that our communities know that the census is for everyone and responses are 100% confidential and cannot be shared with other government agencies, landlords, or law enforcement. This toolkit features graphics, videos, and posting text in a variety of languages that you can use.

We only have one chance a decade to get it right. Let's make it count.

## Sample Posts

---

The more of us who fill out the census, the more money we get for NYC's schools, roads, bridges, health care, housing, and more. Complete it in less than 10 minutes at [my2020census.gov](https://my2020census.gov).
